

HCH-9006-Bundle

The bundle includes the innovative new six bay charger as well as six premium HMC9000-Li(24) batteries.

Charger Features :

- Charges 50% more batteries than the competitor's charger while taking up less shelf space.
- Competitive chargers give no indication as to how full a battery is during a charge. The HMC9000 charger has a tri-color LED light to indicate charging status.
- Honeywell® Batteries' advanced 90 in 90 technology charges batteries 90% in 90 minutes.
- This dual chemistry charger supports both Li-Ion and Li-Polymer chemistries and charges both Honeywell® and leading manufacturer's batteries.

Battery Features :

- At 2400mAh the HMC9000-Li(24) battery offers 20% more runtime than the competition.
